Riipen 2.0

This is more than just an upgrade. It's our users' feedback, answered

Riipen 2.0 keeps popular features in a more intuitive interface, with re-evaluated, enhanced, and user-inspired additions for a vastly improved experience. New features include:

Branded, customizable platform portals

Maintain greater control over the user experience and ensure that users you invite to the Riipen platform have a consistent experience of your institution's brand.

Private marketplace with Portal Pass

Maintain greater control over the user experience and ensure that users you invite to the Riipen platform have a consistent experience of your institution's brand.

Powerful reporting tools

Build your own custom reports, in addition to accessing default reports on popular metrics for your portal.

Role management

Configure custom roles for your portal in order to have more control over access to information and changes within the portal.

Enhanced feedback

Employers will answer custom questions determined by you, to ensure their feedback is more relevant to students and better reflects the type of work completed.

New integrations

Easily integrate with external access systems at the portal level via SAML Single Sign On. Enable portal-wide Canvas integration, and at the user-level access new Google Meet and Zoom integrations.
