Once you have downloaded the setup.exe for Read & Write Gold 11 you will need to locate it on your computer. By default, it is saved to your Downloads folder. After locating the file, double click it.

![User Account Control]

The dialogue box as shown above should pop up after you double click the setup file. Click “Yes”

After clicking yes the computer will install Read & Write Gold automatically. This will take a few minutes. After setup is complete, you will need to activate your copy of Read & Write. Before proceeding make sure that you have an active Internet connection.

![Read&Write]

To activate Read & Write, you must first open the program by locating this icon shown above on you desktop and double clicking it. Once you double click the icon, you should be prompted by the following screen.
Simply click the “Activate” button. This may take a few moments, but once complete, the program will open and you will be ready to use Read & Write. Enjoy your new product!
