I. Approval of Minutes March 4, 2011

II. Discussion of when to post removals, validations and revalidations to the official ES list
   A. Committee thoughts about when to post course removals/revalidations/validations to the approved ES list.
   
   B. The professional advisers had a meeting yesterday (3/22) and one thing mentioned was changes in the ES list that might be done this spring. **Strong and unanimous agreement among the advisers** on changes to ES listings:
      (1) For additions to the list, have them go into effect whatever works best.
      (2) For subtractions from the list, any courses which are on the current list must still be OK for students for **at least this summer and fall**. Students are now being advised and planning schedules on current listings and we need to honor that. If it makes more sense to have them count for the full upcoming school year, that's OK as well.
