Results compared to UND overall:
The following results indicate top areas where students with majors in the College of Nursing answered significantly differently than all other UND students.

Red results indicate that the average Nursing response was lower than other UND students. Green indicates a higher response. The mean difference indicates the extent to which the average Nursing response differed from all other students’ average. The scale for each response is listed next to the title for that question (i.e. scale of 1 to 5, 5 is the highest, 1 is the lowest).
