

University of North Dakota
H-3 and C-14 LSC DISPOSAL FORM

This sheet to only be used for disposal of liquid scintillation cocktail (LSC) or solids contaminated with LSC in concentrations less than 0.05 $\mu\text{Ci}/\text{gram}$ H-3 or C-14.

Type of Material: Solid (to regular trash)* Liquid (to sewer)
(Use separate sheet for solids and liquids)

Isotope	Activity	Disposal Date	Individual

Please submit a copy of this sheet to the Safety Office for each month in which you dispose of LSC liquid or contaminated solids.

*At a minimum, scintillation vials should be placed in a sturdy plastic bag when thrown in the regular trash to ensure that the vials do not spill out prior to reaching the landfill.
