The March of Dimes helps moms have full-term pregnancies and healthy babies. More than 4 million babies are born in the United States each year and the March of Dimes has helped each and every one of them through our research, education, vaccines and breakthroughs.

We are also hard at work on the next big breakthrough – finding a way to effectively prevent premature birth, which affects 500,000 families every year.

In an average week in North Dakota:
- 194 babies are born
- 19 babies are born prematurely
- 12 babies are born with low birth weight
- 1 baby dies before reaching his/her first birthday

Please join in the Special Denim Day by wearing your jeans and donating. Give what you can to your Denim Day Site Coordinator. All contributions are welcome. Checks should be made out to “Denim Day.”

Use your feet to give babies a hand!
March for Babies will be taking place Saturday, April 11 at the Grand Cities Mall. Registration begins at 9:00 a.m. and the walk begins at 10:00 a.m. To learn more or register—visit www.marchforbabies.org
