SECTION 1: GENERAL UNIVERSITY POLICIES

1-23 SUGGESTIONS AND COMPLAINTS

The University welcomes suggestions and/or complaints from students, faculty, and staff. These suggestions and complaints should be directed to the unit or personnel most directly involved. It is only in this way that the institution can become aware of potential problems and take appropriate action. The University may review with accrediting agencies a log of anonymously tracked written student complaints. See Section 2-V of the Code concerning filing complaints for misconduct with the Dean of Students Office.
