SECTION 1: GENERAL UNIVERSITY POLICIES

1-27 SOCIAL NETWORKING SITES

The University of North Dakota and its faculty and staff do not monitor online communities. Further, the University does not forbid faculty, staff, and students from joining and participating in online communities as individuals not acting as agents of the University. However, any behavior that violates this Code which is brought to the attention of a University official will be treated as any other violation and will be referred through channels outlined in this Code.

Social Networking sites permit high levels of electronic communication, but have the potential to compromise personal information to persons you do not know. Students and others using networking sites are encouraged to use privacy functions.
