Purpose: This scholarship promotes diversity through an annual scholarship program for Black/African American, Hispanic, and Native American Indian Students recognizing and encouraging academic achievements by awarding scholarships to full time undergraduate and graduate students pursuing a degree that may lead to a career in the actuarial profession.

6. Make finding a scholarship a part-time job — Actively pursue scholarships, keeping a list of potential awards you qualify for and due dates. You should be willing to write scholarship essays and fill out a variety of different applications.

7. Check with employers — A lot of businesses are willing to help pay employees to go back to school. Check with your supervisor to see what options are available. Many fast food restaurants and chain-retail stores offer scholarships to student employees.

8. Personal or family circumstances — Are you a first-generation college student? Do your parents make less than $25,000 a year? Is English your second language? If you have any of these characteristics, there is probably a scholarship out there waiting for you.

9. Turn hobbies into money — Many things you do for fun can be turned into a scholarship check.

**RECOMMENDED**
SCHOLARSHIP TIPS

1. Talk to guidance counselors — Your high school or college guidance counselors often know of a variety of different scholarship awards available in your area. Local scholarships generally offer less competition than national scholarships. They are also aware of awards specific to your school.

2. Search the web — Many websites like [www.fastweb.com](http://www.fastweb.com), [http://go.salliemae.com/scholarship/default.aspx](http://go.salliemae.com/scholarship/default.aspx), and [http://www.blackexcel.org/100minority.htm](http://www.blackexcel.org/100minority.htm) offer free scholarship searches. Many scholarships have odd or quirky requirements: be sure to check out all options.

3. Be involved — Be an active volunteer in the community. Many scholarships look for individuals who have a history of service. Groups like the National Honor Society or Key Club look good on a scholarship resume. The groups themselves often offer scholarships to outstanding members. Participating in other extra-curricular activities such as writing for the student newspaper or playing a sport open many doors for scholarships.

4. Apply for scholarships from your college/major — Most college departments have different scholarships available for different majors. Check out your college website to find out if there are any scholarships that you qualify for.

5. Work to keep up your grades — When it all comes down to it, colleges are much more likely to award scholarships based on GPA and ACT/SAT scores than anything else. Keeping up your grades in high school and later on in college is necessary to keep the money flowing into your account. Make homework a priority.

SCHOLARSHIP TIPS

1. Start searching for scholarships as soon as possible. Don’t wait until spring of your senior year in high school to start searching, or you’ll miss half the deadlines. There are many scholarships available to students in grades 9, 10 and 11, not just high school seniors. There are even scholarships for students in grades K-8. Continue searching for scholarships even after you are enrolled in college.

2. Answer all of the optional questions on a scholarship matching web site for about twice as many matches.

3. Use a free scholarship matching service like Fastweb.com. The Fastweb database is updated daily, and the site will email you notifications of new scholarships that match your personal background profile.

4. Look for local scholarships on bulletin boards near the guidance counselor of financial aid offices, or the library’s jobs and careers section.

5. Apply to every scholarship for which you are eligible. Pursue less competitive scholarships, such as small awards and essay contests, since they are easier to win and the money adds up and helps you win bigger scholarships.

6. Don’t miss deadlines. Use a calendar and checklist to get organized.

7. Tailor your application to the sponsor’s goals. Read and follow the instructions carefully.

8. If you have difficulty writing essays, try recording yourself as you answer the question out loud, and transcribe the recording later. Most people can think and speak faster than they can write or type. Create an outline afterward to organize your thoughts.

9. Personalize your essay and be passionate. Write about something of interest to you. Make your application stand out from the crowd. Talk about your impact on other people. Give examples and be specific.

10. Google your name and make sure you have a professional online profile. Use a professional email address, such as firstname.lastname@gmail.com. Clean up the content of your Facebook account, removing inappropriate and immature material.

11. Proofread a printed copy of your essay and the application for spelling and grammar errors.
