

# UNIVERSITY ASSESSMENT COMMITTEE

## Feedback to Departments on Assessment Activities Reported in 2004-2005 Annual Reports

DEPARTMENT Physical Therapy DATE 4/24/06

COMMITTEE MEMBER(S) CONDUCTING REVIEW Ginny Guido, Joan Hawthorne

### 1. STUDENT LEARNING GOALS

- |                                       |              |                |                           |
|---------------------------------------|--------------|----------------|---------------------------|
| • Were any goals referenced?          | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • If so, were goals well articulated? | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • Do goals address student learning?  | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |

#### Comments:

**Undergraduate:** Not an undergrad program.

**Graduate:** Goals include references to communication goals, service and life-long learning goals, mastery of the scientific method, and ethics, in addition to goals more specifically relevant to PT practice.

### 2. ASSESSMENT METHODS

- |  |              |                |                           |
|--|--------------|----------------|---------------------------|
| Were any specific assessment methods referenced?   | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • If so, were specifically chosen assessment methods appropriately aligned with individual goals?        | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>x</u>    |
| • Were both direct and indirect assessment methods used as components of a “multiple measures” approach? | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |

#### Comments:

**Undergraduate:** NA

**Graduate:** The department uses a wonderful range of assessment methods well-suited to answering questions about their list of goals, although the documents reviewed did not include clear statements of alignment between the various methods and goals – methods are described as aligned with “area of evaluation,” several of which relate to goals, but the alignment is left to the reader to decipher.

### 3. ASSESSMENT RESULTS

- |  |              |                |                           |
|--|--------------|----------------|---------------------------|
| Were any assessment results reported?  | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • If so, were the results clear in terms of how they specifically affirm achievement of goals? | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • If so, were the results clear in terms of how they indicate need for improvement?            | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |
| • Were the results tied to goals for student learning?   | YES <u>x</u> | NO <u>    </u> | QUALIFIED Y/N <u>    </u> |

#### Comments:

**Undergraduate:** NA

**Graduate:** Results from assessment are described and the meaning of data is examined. Again, it is left up to the reader to determine alignment with goals, although it’s clear that data are strongly aligned with Goal 1.

#### 4. CLOSING THE LOOP

Were any actions taken on the basis of assessment results reported?

YES ☒ NO ☐ QUALIFIED Y/N ☐

- If so, do curricular or other improvements/changes arising from assessment results directly address goals for student learning?

YES ☒ NO ☐ QUALIFIED Y/N ☐

*Comments:*

**Undergraduate: NA**

**Graduate: Data have directly resulted in curriculum changes**

#### SUMMARY

##### *Strengths*

- ☒ A specific plan for assessment is in place.
- ☒ Student learning goals are well-articulated.
- ☒ Assessment methods are clearly described.
- ☒ Assessment methods are appropriately selected.
- ☒ Assessment methods are well-implemented.
- ☒ Direct and indirect methods are implemented.
- ☒ Results are reported.
- ☒ Results are tied to closing the loop.  
(Decision-making is tied to evidence.)

##### *Areas for Improvement*

- ☐ No specific plan for assessment is in place.
- ☐ Student learning goals are not well-articulated.
- ☐ Assessment methods are not clearly described.
- ☐ Assessment methods are not appropriately selected.
- ☐ Assessment methods are not well-implemented.
- ☐ A single type of assessment methods predominates.
- ☐ No results are reported.
- ☐ Results are not clearly tied to closing the loop.  
(Decision-making is not directly tied to evidence.)

#### OVERALL SUMMARY AND RECOMMENDATIONS:

**An excellent plan and excellent follow-through in every respect, with the single exception that the documentation doesn't clearly articulate alignment of goals with methods, results, and actions. The reader can figure out alignment, but it would be helpful, for the sake of readers outside of the department, to more clearly indicate the alignment as a guarantee that readers understand the data in the same way as departmental faculty do.**

Section 1: ☒ Y ☐ N Section 2: ☒ Y ☐ N Section 3: ☒ Y ☐ N Section 4: ☒ Y ☐ N

Coding Key:

- Y = yes, this is done appropriately and well
- N = no, this is not done at all, or it is not done in relationship to student learning
- NA = no information available
- ? = action or progress is apparent; however, evidence is lacking that this is completely and appropriately done
