This information is provided as guide only. Students are strongly encouraged to meet with their major specific UND advisor.

An official evaluation of transfer credit will be done upon admission to the university. Transfer credits will be evaluated and applied according to the current catalog and the approved Essential Studies list at the first semester of enrollment at UND.

Transfer credit for courses other than those listed above will be evaluated on a course-by-course basis.

*Some courses during the first two years may need to be taken online collaboratively at UND in order to stay on track for four year graduation.

Students are required to fulfill UND graduation and GPA requirements to receive a degree and should consult with their UND advisor and the undergraduate catalog for details.

*Courses must be taken through UND (can be done so remotely) in order for sequencing of plan. Students can enroll through collaborative registration.

**DEDP/Online students must complete laboratory requirements on-campus during summer semester.
