Text of the motion:

Charge a faculty Senate Development Committee to develop a new constitution and bylaws for a Faculty Senate for approval at the first University Senate meeting in 2015-16. The committee membership will be faculty appointed by the Chair of University Senate.

Charge a University Senate Revision Committee to revise the existing constitution and bylaws of the University Council and University Senate for approval at the first University Senate meeting in 2015-16.

Further, the committee will review and revise the purpose, charge and membership of the university governance and advisory committees. The membership will include representatives of faculty, staff, students and administration. Committee members will be appointed by the chairs of the respective governance groups; the President will appoint the administration representative.

Charge the two committees to consult in order to insure that governance structure is aligned and integrated.

The faculty elected to the 2015-16 University Senate also will act as senators in the newly constituted Faculty Senate during the time when the governance documents are being drafted, reviewed and approved; thus, faculty will serve on both the University Senate and the Faculty Senate in the transition period. The Chair of the Faculty Senate will be the Chair of the University Senate. The agenda of this body will be those items referred from the University Senate and those items identified by faculty.
