ROUND 4 CHILDREN & FAMILY SERVICE REVIEWS (CFSR) QUARTER 2

Greetings! Our first quarter of North Dakota's first-ever state-led CFSR Case Review has just wrapped up! We will now be embarking on the second quarter to finish up reviewing the required 65 cases for the Round 4 CFSR. We appreciate everyone's collaboration and hard work to make this process a success. As preparations begin for the second quarter, we want partner agencies to have the following important CFSR Case Review information. If you or your staff have questions, please contact Leanne Miller at lemiller@nd.gov.

R4 CFSR Q2 HIGHLIGHTS

1. Case Outreach

- Beginning the week of **Monday, December 16th**, QA reviewers will contact agencies to initiate the case outreach process. Agencies will be contacted to discuss cases that may be reviewed based on the stratified case sample list's random ranking order. The QA reviewer will contact relevant key case participants to determine if they are interested in participating in the review or if someone else can speak to their perspective. We may seek the assistance of the agency to reach a case participant.
- A designated QA reviewer will be the contact person for each zone/agency and will work with your agency throughout the case review event. Contact information and QA outreach assignments can be found [QA unit's Insider page](#) or the [CFSTC website](#) page.
- The QA unit will review **25 in-home cases** this quarter and **2 foster care cases** as a result of foster care case eliminations that occurred in R4 Q1. *There will also be additional cases that will be secured as alternate cases for both in-home and foster care cases (*only for CXZ teams 1 & 2 – metro*) should more eliminations occur. Based on the proportion of in-home cases in the statewide sample and foster care cases that were eliminated during the first quarter, the following number of cases will be reviewed per Cross Zonal CQI Team:
 - Cross Zonal CQI Team 1 – 4 IH cases & 1 FC case
 - Cross Zonal CQI Team 2 (metro) – 1 IH case & 1 FC case
 - Cross Zonal CQI Team 2 (non-metro) – 4 IH cases
 - Cross Zonal CQI Team 3 – 11 IH cases
 - Cross Zonal CQI Team 4 – 5 IH cases
