

2019 North Dakota Geospatial Summit geo-crawl social

geo-cache + pub-crawl = geo-crawl

- 5 stage geo-crawl
- Collect Clues at each location to solve for the final coordinate pair
- Discover parts of Downtown Bismarck
- Enjoy food and/or drink at each location
- Network with fellow attendees and have some fun
- Use google or apple maps to find each location on your phone

The social is a no-host Geocache Pub-Crawl. The geo-crawl will lead you to a variety of Bismarck's food and watering holes. Chosen for their atmosphere, food and beverage selections, and location, these places will help you discover a sampling of downtown Bismarck. While on your quest, stop at any location and grab a bite to eat and enjoy a beverage while networking with other conference attendees. We encourage working in teams as you geo-crawl through the clues to the final destination.

What is geocaching? Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a specific set of coordinates and then attempt to find something. We will be finding clues to the next hangout.

****This is a no-host social, cost is not included in your conference registration. Food and beverage are available for purchase at each establishment if you chose to do so. Wear your conference badge so others know that you are participating and would like to network.*
