

On February 14, 2024, Adam Austin (Totem Technologies) will be presenting a webinar titled “Evolving DoD Contractor Cybersecurity Requirements (2024 Update).” In this webinar, you will learn about Federal contractors’ basic cybersecurity requirements that must be implemented in their internal information technology (IT) systems that process Federal contract-related data. You will also learn about some of the implementation challenges and resources you can use to navigate the cybersecurity landscape.

As a client of APEX Accelerators, you can attend this webinar at no cost to you. If you are interested in this subject, check out the details below and register today!

Evolving DoD Contractor Cybersecurity Requirements (2024 Update)
