GOVERNMENT CONTRACTING for SMALL BUSINESSES WEBINAR SERIES

February 6 – Understanding Teaming Arrangements: Subcontract & Joint Ventures under the FAR 9 – 10 a.m. Central Time

Federal agency contracts continue to grow in size and complexity, often requiring the capabilities of several contractors for successful contract performance. The Federal Acquisition Regulation encourages use of contractor “Teaming Arrangements” that allow two or more contractors to bid on these projects together – either as a team of prime contractor and subcontractor or together by forming a separate legal entity joint venture. In this session government contract lawyer Tim Connelly provides a practical overview of this important area of federal procurement law so your company can bid on, win and successfully perform larger and more complex contracts.

May 1 – SBA Federal Certification – Introduction to the HUBZone Program

Joining the HUBZone (historically underutilized business zones) program makes your business eligible to compete for the program's set-aside contracts and get a 10% price evaluation preference in full and open contract competitions.

May 2 – SBA Federal Certification – Women-Owned Small Business (WOSB) / Economically Disadvantaged Women-Owned Small Business (EDWOSB)

To level the playing field in the federal contracting marketplace, the federal government's goal is to award at least 5% of all federal contracting dollars to women-owned small businesses each year.

May 3 – SBA Federal Certification – Veteran Certification

Every year, the federal government awards a portion of contracting dollars specifically to businesses owned by veterans. Also, small businesses owned by veterans may be eligible to purchase surplus property from the federal government.
