Earning your BSN at the University of North Dakota will sharpen your skills, broaden your understanding of best practice and prepare to take on more responsibilities as a leader in a hospital or healthcare organization!

The College of Nursing & Professional Disciplines at UND has educated nurses for over 100 years and continues to prepare some of the finest graduates in the nation.

The online RN-BSN program is designed for Registered Nurses wanting to build on their previous nursing education and expand their practice as a BSN RN. This program utilizes prior learning and experience to develop BSN graduates with strong clinical reasoning, complex decision making and leadership skills required in current and future healthcare settings. A BSN degree prepares RNs to further their education in nursing graduate programs leading to careers in advanced practice, education and research.

**About the Program**
- 31 nursing credits plus UND graduation requirements
- Full-time: 1 year program
- Part-time: 2 year program
- Must have a current, unencumbered US RN license
- 2.75 minimum GPA

**Program Admission**
To apply to the online RN to BSN degree track, you need to have the following:

1. Be admitted to the University of North Dakota by submitting your application to: [UND.edu/admissions/apply](http://UND.edu/admissions/apply)
2. Submit all transcripts to UND with prerequisite grades posted
3. Apply by submitting RN-BSN application online ([nursing.UND.edu/programs/rn-bsn](http://nursing.UND.edu/programs/rn-bsn)) or emailing the Nursing Office of Student Services by email ([UND.nursingadmissions@UND.edu](mailto:UND.nursingadmissions@UND.edu))
4. Complete SOC 326 – Sociological Statistics (recommended to take online in the spring prior to graduation from AD program or summer prior to beginning RN-BSN program)
5. Successful completion of NCLEX and licensure as an RN

See [UND.edu/programs/nursing-completion-rn-bsn](http://UND.edu/programs/nursing-completion-rn-bsn) for full program information.
