Athletic Training (B.S.)

Blend your love of sports and passion for compassionate care to keep athletes active and in the game.

As an athletic training student in the first program in the country associated with a School of Medicine, you'll work with physicians, physical therapists and certified athletic trainers to learn the best ways to keep athletes healthy and active. You'll gain invaluable in-class and hands-on experience leaving you fully prepared to take the Board of Certification exam.

Program Snapshot
Program type: Major
Format: On-campus
Est. time to complete: 1 year of Pre-Athletic Training; 3 years in the B.S.A.T. program
Credit hours: 127

Why study Athletic Training at UND?

The Department of Sports Medicine is transitioning its athletic training program to the Masters in Athletic Training as mandated by the Commission on Accreditation of Athletic Training Education (CAATE). The last class of undergraduates allowed to apply to the undergraduate program will be in the spring of 2020 and the students accepted will start the professional program in the fall of 2020. Students interested in applying to the Masters in Athletic Training will need to wait until the 2021-2022 academic year to apply to the program which is tentatively scheduled to start in the fall of 2022.

The B.S. in Athletic Training degree entails a 4-year curriculum (1 year of Pre-Athletic Training courses and 3 years of B.S.A.T. courses) designed to prepare you for an entry-level position in the field of athletic training. You'll gain real-world experience through this program, practicing injury prevention, injury assessment, sports rehabilitation and sport-specific conditioning.

Upon completion of the curriculum, you'll be prepared to take the BOC Certification examination. Admission to the Athletic Training program is competitive and you should meet with the academic coordinator early in your freshman year before applying to the program.

Accreditation

The Athletic Training program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).
