Format: On-campus  
Est. time to complete: 5 semesters  
Credit hours: 67 (thesis option) or 65 (non-thesis option)

Why Study Communication Sciences and Disorders at UND?

Communication sciences and disorders is a fast-growing field that offers tremendous personal and professional rewards. UND's CSD program combines rigorous classroom instruction with research and real-world clinical experience to prepare you to evaluate, diagnose and treat a broad range of speech, language and hearing disorders.

At UND, you'll work closely with faculty who have a broad range of professional experiences and interests. With a student-to-faculty ratio of 3:1, you'll develop close working relationships with your professors and classmates.

You'll also gain experience through our on-site clinical partnerships with local schools and hospitals. Practice your skills in our:

- Language and literacy group
- Toddler language circle
- Performance and recovery in stroke group
- Social language group
