| Credit hours: 84                                 |

Why Study Early Childhood and Special Education at UND?

With the accelerated online program, you'll gain a bachelor's in Early Childhood Education, Special Education minor, and master's in Special Education with specialization in Early Childhood Education. Upon degree completion, you will be eligible for licensure in Early Childhood Education and Special Education. The degree emphasizes scholarly application for practitioners, and students may continue their education and pursue a Doctor of Education.

As you earn your early childhood education degree online, you'll focus on children in the context of family, culture and community. You'll explore developmentally appropriate practices, emergent curriculum, descriptive assessment, and problem-solving approaches to resolving conflict and choices for children. You will learn online from an interdisciplinary group of faculty members with extensive experience as practitioners, professors and researchers.

How Does an Accelerated Online Education Program Work?

Early Childhood Education B.S. + Special Education Minor + Special Education M.Ed. with a specialization in Early Childhood Education

The online degree programs M.Ed. in Special Education or M.S. in Early Childhood Education allows those with an associate’s degree in education or currently enrolled undergraduate students at UND an opportunity to complete the requirements for both the bachelor’s and master’s degrees at an accelerated pace. Undergraduates with 60 credits or those currently in an Education degree program are eligible for consideration for the accelerated degree program.

All requirements for the undergraduate and graduate degrees must be met. You may double count up to 12 graduate-level credits towards the requirements for your undergraduate degree and your M.Ed. degree. You must obtain your M.Ed. degree within 12 months of completing your undergraduate degree, provided that the degree requirements can be completed in that time frame.

Get a Teaching Degree from a Top Ranked Education Program

UND consistently rank among the best for educational quality, affordability, and career outcomes.

#14 - Best Early Childhood Education Bachelor's Programs for 2019
#21 - U.S News & World Report Best online graduate education program for veterans
