Early Childhood Education (M.S.)

Enhance your professional skills in early childhood education through an online master's program ranked among the Top 10 nationwide.

UND's online Master of Science (M.S.) in Early Childhood Education is a non-licensing degree that prepares you to address the educational needs of children under the age of eight, in a variety of settings.

Program Snapshot

| Program type: Master's Degree |
| Format: Online |
| Est. time to complete: 2+ years |
| Credit hours: 32 |

Why Earn a Master's in Early Childhood Education Online at UND?

The online M.S. in Early Childhood Education combines theory and research with practical experience. You begin with the belief that the child is a born learner and, as a teacher, you must be an open-minded observer who develops early learning curriculum with the child in mind.

The child is always at the center of our online ECE program. Through online courses and a classroom practicum, you will learn educational methods that emphasize young children in the context of their:

- Family
- Culture
- Community

In addition, through a partnership with the McCormick Center for Early Childhood Leadership, we offer Aim4Excellence, an online national Director Credential for Early Childhood administrators.

Accreditation by CAEP and NAEYC

Teacher Education programs at UND are accredited by the Council for Accreditation of Educator Preparation (CAEP). The ECE online program follows the guidelines of the National Association for the Education of Young Children (NAEYC).

Top Online Early Childhood Education Program in the Nation

UND is consistently recognized by U.S. News & World Report, and many other national rankings, as a best online early childhood master's degree program.

Early Childhood Education Careers

7% Projected growth for kindergarten and elementary school teachers through 2026*
55K Median annual pay for kindergarten and elementary school teachers*

*U.S. Bureau of Labor Statistics

The online Master's in Early Childhood Education program prepares you to teach and be a leader in:

- Public and private schools (Pre-K and Kindergarten through third grade)
- Head Start/Early Head Start programs
- Child care and education centers
- Other programs related to the education of young children
- Administration/Director/Curriculum Specialist
- Early Intervention
- Community college teaching

According to the U.S. Bureau of Labor Statistics, job prospects for preschool, kindergarten and elementary teachers are expected to be favorable.

There is a push to improve early childhood education in many states by offering full-day kindergarten and universal preschool programs. These programs, along with projected higher enrollment growth for preschool age children, will create many new jobs for early childhood teachers and educational directors and administrators.
