Acquire the clinical, professional and critical inquiry skills you'll need for a career as a physical therapist.

UND's competitive and highly-successful physical therapy program is accredited by the CAPTE. 100% of our licensed physical therapy graduates report employment within 12 months of graduation.

**Program Snapshot**
- Program type: Doctoral Degree
- Format: On-campus
- Est. time to complete: 6.5 years | 3 years pre-PT and 3.5 years professional program
- Credit hours: 90 (pre-physical therapy); 125 (professional program)

Why Earn a Doctorate Degree in Physical Therapy at UND?

Physical therapists provide services to those who have impairments, activity limitation and participation restrictions related to environmental or personal factors. Through UND's physical therapy doctoral program, you'll be able to:

- Gain hands-on **clinical experiences** crucial to your development as a physical therapist.
- Demonstrate the skills necessary for the entry-level practice of physical therapy.
- Provide service to the community and/or to the profession.
- Develop skills for life-long learning and critical inquiry related to clinical and basic science research.

The first three years of the curriculum are considered pre-physical therapy. The professional education component of the D.P.T. requires three years and two summer sessions beyond meeting pre-physical therapy requirements.

The program is a competitive, accepting only 52 students per year.

**Pre-PT**

UND's **Pre-Physical Therapy program** is recommended for all incoming freshmen. The three-year program provides the building blocks in your application to the D.P.T. program.

**CAPTE Accreditation**

The Physical Therapy program at UND is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE).

**Application Deadlines**

**FALL: DEC 15**
