Your path to medical school starts here with a science and liberal arts education in our Pre-Med program.

Blend science and personal interaction with Pre-Medicine at UND to help begin your journey into the medical field. While Pre-Med is not a major, it's the recommended preparation for medical school, and will help you get the solid scientific knowledge base that you need to succeed as a medical professional.

Program Snapshot

- **Program type:** Pre-Professional Program
- **Format:** On-campus
- **Est. time to complete:** 4 years
- **Credit hours:** 125

Why Study Pre-Medicine at UND?

Combine any undergraduate major with the pre-medicine curriculum for an education that will make you an excellent candidate for medical school. Whether you major in a foreign language, science, liberal arts, or another field, you'll gain the skills and knowledge you need to be successful. You'll work with an advisor from UND's College of Arts & Sciences to develop a plan of study that prepares you for medical school. Some required prerequisite classes for medical school applicants are:

- Biology
- Chemistry
- Organic Chemistry
- Physics
- English Composition
- College Algebra
- Calculus/Statistics
- Psychology
- Biochemistry

This program is not a major. For more information about the requirements and steps needed to join the Pre-Medicine program, visit the College of Arts & Sciences website.

Medical schools do not require any particular major. Pre-Medicine students have complete such majors as:

- Athletic Training
- Biology
- Biology: Professional Health Sciences Emphasis
- Chemistry
- Criminal Justice
- Dietetics
- Engineering
- Forensic Science
- Kinesiology
- Math
- Psychology
- Public Health Education
- Sociology

UND is also home to the state's only medical school. As an undergraduate student, you'll take classes in the medical school building, have access to UND faculty and opportunities to work or volunteer in the medical field.

Priority Application Deadlines
