Study the intricacies of the human mind and prepare for a fulfilling career in mental health care, research and beyond.

Human behavior is an endless source of fascination. As a Psychology major at UND, you’ll explore why people behave the way they do and learn how to evaluate and address a variety of psychological issues.

Program Snapshot

Program type: Major Format: On-campus or online Est. time to complete: 4 years Credit hours: 120 (major), 20 (minor)

Why Study Psychology at UND?

The study of psychology offers valuable insights into the workings of the human mind. The major in Psychology at UND combines coursework, research and other hands-on opportunities to give you a comprehensive education in the field.

You'll choose from several options:

- The B.A. in Psychology
- The B.S. in Psychology
- The online B.A. in Psychology, a full- or part-time program offered 100% online
- A minor in Psychology

You can further customize your degree with a specialized course plan in one of the following:

- Clinical Science and Learning
- Social and Cultural Psychology

You’ll learn the principles and theories of behavior and explore the scientific underpinnings of psychology — and learn how psychology applies to everyday life.
