Why Study Social Work at UND?

Choose Social Work if you're looking for a career with "meaning, action, diversity, satisfaction, and an abundance of optimism" (NASW). UND’s nationally-recognized and caring faculty, numerous "firsts" in online education, and high profile in the state and region make us a great value and a great choice.

In addition to a social work major, students often pursue related academic minors:

- Gerontology
- Chemical Dependency

Social work stands apart from other social science degrees in that most states license social workers at the bachelor's level. Only those who hold formal social work degrees can call themselves social workers.

**Accreditation**

The undergraduate program in Social Work, offering a Bachelors of Science in Social Work (B.S.S.W.) degree, has been accredited since 1974, when undergraduate accreditation first began. The Department of Social Work was re-accredited by the Council on Social Work Education (CSWE) in 2014. The department continues to update its curriculum to adhere to revised standards established by the Commission on Accreditation of the Council on Social Work Education.

**Top Online Social Work Program in the Nation**

Every accredited social work program offers education, but not every program prepares students to make a real impact the way UND does. UND is increasingly regarded as one of the top academic and research institutions in the nation for social work. We consistently rank among the best for educational quality, affordability, and career outcomes.
