Special Education (M.Ed.)

Specialize your training to support all individuals with diverse learning abilities and behavioral needs through professional excellence and advocacy.

For individuals without an undergraduate education degree, earn a Master's of Education from a Special Education Program that aspires to be globally renowned for its expertise, leadership, diversity, and high quality teacher and professional preparation in the field of special education.

Program Snapshot

Program type: Master's Degree  
Format: Online  
Est. time to complete: 1.5+ years  
Credit hours: 32+

Why Study Special Education at UND?

The program is designed for educators and other professionals interested in the study of children, adolescents and/or adults with diverse learning abilities. The degree is appropriate for certified teachers as well as candidates with a bachelor's degree in a field other than education. The degree emphasizes scholarly application for practitioners, and students may continue their education and pursue a Doctor of Education (beginning at UND in Fall 2019). In addition, UND is the only university in the United States to offer a fully online master's program in the area of visual impairment.

You can choose from nine specializations:

- Autism Spectrum Disorder
- Early Childhood Special Education
- General Special Education
- Emotional Behavioral Disorders (EBD)
- Gifted/Talented (G/T)
- Intellectual Disabilities (ID)
- Learning Disabilities
- Special Education Strategist
- Visual Impairment

Online students have an affordable tuition rate. You'll pay the in-state tuition as a North Dakota resident.

You'll learn from an interdisciplinary group of faculty members with extensive experience as practitioners, professors and researchers. And we offer an approved teacher certification program for North Dakota that is transferable to most states.

For current teachers or for those seeking ABA specialization, earn your M.S. in Special Education.

Accredited Special Education Program

The Special Education Program within the Department of Teaching, Learning & Professional Practice is accredited by the Council for the Accreditation of Educator Preparation (CAEP) and approved by Educational Standards and Practices Board (ESPB).

Application Deadlines

FALL: June 15  
SPRING: Nov 15  
SUMMER: Mar 15

Special Education Highlights

- Borderless: Program is entirely online with no on-campus travel requirement
- Barrier-Free: No entry exams, consistent course offerings for timely graduation, flexible completion of structured lessons, coursework tied to practical experiences, option of on-the-job fieldwork, and master's project applicable to field
Individualized: Responsive faculty, one-on-one advising, and customized program of study
Ranked by thebestschools.org as a top online program.

Outcomes

57K  Median annual wage for special education teachers*
8%  Projected job growth for special education teachers through 2026* Teachers with master's degrees fall on the high end of the scale or earn a premium.

*U.S. Bureau of Labor Statistics

Careers in Special Education

Job prospects for special education teachers are excellent due to the rising enrollments of students receiving special education and shortages of qualified teachers. Job openings are expected as a result teacher retirements or career changes.

Our graduates work in schools, hospitals, human services agencies, state and private institutions and in private practice.
