How long have you worked for Wellness & Health Promotion?

One year.

What skills have you learned working at the Wellness Center that you will take with you in your future career?

I have learned many skills from working here that I can take to my future career; the two most important being improving my public speaking and leadership skills.

What is your greatest accomplishment?

My greatest career accomplishment would be getting a job as a Critical Care Tech in an ICU because it allows me to make a difference in the lives of others while learning and growing as an individual.

If you could have another person's job at the Wellness Center for just one day, what would it be?

I would take Mike Wozniak's job and be the Intramurals Coordinator.

Who do you look up to and why?

I look up to my parents. They are extremely hard working and I admire their constant desire to help others including my siblings and me.
